Remodel of Elevator Cabs

The Board of Directors recently approved a remodel of the elevator cabs. Sometime over the next two months, the elevator in your building will be **out of service for a minimum of three days.**

We will send reminders periodically and will let you know when your elevator will be out of service as soon as we get confirmation dates from the vendor.

Lockboxes

We will again be removing all lockboxes from the lobbies which are not being used for an active real estate listing. If your unit is currently listed, it must have prominently displayed the real estate contact information and the unit number in order to remain. We will check for active listings immediately before removals begin.

Fun for Kids:

Do a Science Experiment!

You can do a ton of at-home science experiments with very little prep and set-up, often with items you can just grab from around the house. For example, if you sit a "cloud" of shaving cream on top of a jar of water, then add drops of blue water one-at-a-time, when the "cloud" becomes saturated, you get blue rain — and the water cycle in a jar.

"Alone, we can do so little; together, we can do so much" – Helen Keller

Spare Unit Keys

A couple months ago, someone left their stove burner on and left their unit, setting the fire alarms off. Firefighters had to break down the Fire Door and the owner was billed. Each of these doors costs \$1,000-\$5,000 to replace. Please leave a copy of your unit key with the office, which will be stored in a secure locked location, to avoid these charges in case of an emergency.

Did you know?

The country's first drive-in restaurant, Oscar's, was opened in San Diego by Robert Oscar Peterson who later founded the fast-food chain Jack In The Box in 1951.

San Diego was home to everyone's favorite wacky children's author, Ted Geisel – more frequently referred to as Dr. Seuss.

Get your gears going. WD-40 was invented in San Diego by the Rocket Chemical Company in 1953.
